

Hepatic Angiogram GUIDED TRAINING

Professional Growth and Learning

Introduction

Professional and Development Programs at King Faisal Specialist Hospital & Research Centre (KFSH&RC) are designed to enhance the skills and knowledge of healthcare professionals and other related disciplines. These programs aim to ensure that staff remain up-to-date with the latest medical practices, technologies, and research advancements. Through a variety of workshops, training sessions, and certifications, KFSH&RC fosters continuous learning and professional growth, ultimately improving patient care and hospital services.

Overview of On-The-Job Training (OJT) Programs

On-The-Job Training Programs at King Faisal Specialist Hospital & Research Centre (KFSH&RC) are designed to provide employees with hands-on experience in their specific fields while they work. These programs aim to enhance practical skills and ensure that staff are fully equipped to handle their responsibilities effectively. By integrating training directly into the workplace, KFSH&RC ensures that employees can apply what they learn immediately, leading to improved performance and a more efficient work environment.

Apprenticeship Training Programs (ATP)

The Structured Apprenticeship Training Program (ATP) at King Faisal Specialist Hospital and Research Centre (KFSH&RC) is a premier on-the-job training initiative. This program is meticulously designed to enhance the knowledge and skills required in specialized areas, ensuring participants become highly qualified professionals. KFSH&RC's ATP program is delivered by expert preceptors who use state-of-the-art equipment and technology to provide an engaging and comprehensive learning experience. The program duration ranges from one week to six months, offering a structured training plan that encompasses all the essential competencies needed for success in your field.

ATP Program:

Hepatic Angiogram Guided Training

Program Overview:

The Hepatic Angiogram Training Program is a specialized apprenticeship program designed to empower participants with the skills necessary to expertly perform hepatic angiogram procedures and administer treatment for hepatocellular carcinoma (HCC). This program emphasizes proficiency in differentiating between radiotherapy and chemotherapy for HCC, understanding the mapping

Hepatic Angiogram GUIDED TRAINING

process of hepatic angiograms, and preparing for the procedure. Essential skills developed include assisting doctors and scrubber technologists during the procedure, annotating imaging for PACS submission, and managing the sterile field. The program ensures comprehensive training in both the technical and practical aspects of hepatic angiography to enhance patient care and procedural efficiency.

Program Objectives:

By the end of the training, participants will:

- State the purpose of hepatic angiogram (mapping).
- Differentiate between radiotherapy and chemotherapy treatment for HCC.
- Recognize the items needed for pre-procedure preparation.
- Assist doctors and the scrubber technologist during procedure.
- Annotate the procedure's images and send them to the PACS.
- Prepare the sterile field and scrub in the procedure.

Acceptance Criteria:

- 2 years' work experience in Angiography
- Bachelor's degree in Radiological Science
- Good medical terminology knowledge
- BLS qualified
- Interview (Appearance, Personality, Behavior and Knowledge)
- English Placement Test

Duration:

- Three months.

Benefits:

- Medical coverage as per hospital policy.
- Certificate of completion.

Fees:

- 2,000 SAR per month (excluding 15% VAT).
