

Physical Therapy GUIDED TRAINING

Undergraduate Training Program

Introduction

King Faisal Specialist Hospital and Research Centre (KFSH&RC) offers a diverse array of training programs to support the development of healthcare professionals. The Undergraduate Training Programs include Internship Training Programs, Practicum Training Programs, Transition to Practice Programs and Summer Training Programs, providing comprehensive clinical experience to undergraduate students.

Overview of Internship Training Programs

The Internship Training Program is a form of experiential learning that integrates knowledge learned in the classroom with practical application and skills development in a professional setting. Also, designed for non-medical interns, who enrolled in academic institutions. The aim of these programs is to provide interns with fundamental and essential practical skills.

Internship Program:

Physical Therapy Guided Training

Program Overview:

The Physical Rehabilitation Department is committed to preparing Physical Therapy interns to deliver the highest quality of care in a highly specialized hospital environment to the people of Saudi Arabia. The 6 months training rotation will cover outpatient and inpatient areas. The outpatient rotations may include musculoskeletal, women's health, men's health and lymphedema clinics. For inpatient rotations, the interns will work in different areas e.g. Orthopedics, Neurology, Oncology, Cardiology, Organ Transplant and ICU. Interns will be able to address physical impairments, reach a physical therapy diagnosis and plan treatment for a wide variety of patients who need physical therapy services in the inpatient and outpatient settings.

Program Objectives:

By the end of the training, participants will:

- Explain the principles of physical therapy assessment
- State the principles of physical therapy treatment
- Apply the skills needed to perform subjective and objective assessment
- Analyze cases using clinical rational skills
- Solve patient problems with emphasis on patient priority
- Write a management / treatment plan to achieve SMART goals
